Natural Disaster Resource Guide

Background

Not if, but when: Every U.S. state and territory is at risk of natural disasters.

Magellan Healthcare has developed this guide as a comprehensive resource for employees seeking disaster resiliency and recovery assistance. The programs and services included are designed to assist individuals, state agencies or departments and communities that have been impacted by disasters. This guide serves as an extensive online collection of relevant resources and tools for disaster and emergency recovery, ensuring you have all the support you need in one place.

Disasters disrupt thousands of lives every year, leaving behind lasting effects on people and property. After a disaster, many in your community, as well as family and friends in other states, may need your help. The following provides resources by state so you can play a role in assisting others.

National resources are listed first, followed by resources for each of the 50 states in alphabetical order.
